CANADA'S BOOT — SINCE 1910

McKinney M.U.T. 8" - Dark Brown

KD0A4TEPDBX

Bringing modern innovation and comfort, the McKinney M.U.T. builds on Kodiak's heritage of purpose-built boots. Behind that rugged, durable leather is a 100% waterproof/breathable membrane that extends throughout the bellowed tongue for a fortress against the elements. Our new technology, the Multi-Use Toe (M.U.T.) is designed for pushing, holding and propping up materials while you work. Underneath the rubber toe cap sits a CSA and ASTM approved composite toe to keep you safer, and an oil- and slip-resistant, non-marking rubber outsole that's backed with a composite plate to maximize protection and safety on the jobsite.

- Kodiak® 8" waterproof boot with M.U.T. Multi Use Toe
- Full grain waterproof leather and waterproof membrane construction
- Full bellows leather tongue
- Cemented and stitched Rubber M.U.T. Multi Use Toe
- Kodiak® SOS Smell Out Science® odour control technology
- Comfortzone™ footbed with OrthoLite® comfort foam
- Oil & slip-resistant, non-marking rubber outsole
- CSA and ASTM approved composite toe, composite plate, ESR/EH
